School MIS / Databases

Way2Pay can replicate your school and class structure as per your MIS regardless of which MIS or database you use.

To arrange a demonstration

Simply fill out the form on BOIPA.com/Way2Pay and a member of our team will be in touch.

School Financial Systems

Way2Pay can be configured as per your schools financial system and match your cost centre and ledger codes and give you full details for full reconciliation. All payments are fully traceable and auditable down to student, class and activity.

Features also include:

- Flexible income type coding
- General ledger mapping
- Customised reports: SUN, Mansor, etc.
- Exports in multiple formats: CSV, XLS, XML, etc.

“ I would recommend Way2Pay to peers at other schools. It's easy to use, easy to set up – and my colleagues would be of the same opinion. With Way2Pay you can see the money you've taken instantly. It has sped up payments, and to a degree it has helped with accounting too. ”

– Mary O'Leary, clerical officer at St Peter's Community School

As part of our commitment to schools, all schools will receive full training on Way2Pay. School training and support is available as soon as you have returned the school booking form. Our team will work with you through the whole process.
